

WORK FORCE CENTERS

The Department of Economic Security fosters economic self-sufficiency and independence through an integrated employment and training system; through support of career centers called Minnesota Workforce Centers.

There are 53 centers through Minnesota providing referral services to both job seekers and employers. Included in offered services are state and federal work programs for people receiving public assistance, youth focused programs, veterans, older workers, and individuals with a variety of programs, veterans, older workers, and individuals with a variety of disabilities.
