

The Minnesota Housing Government Data Practices Act Disclosure Statement form has been created to meet the HIPPA requirements for the Bridges, RAFS, Housing Trust Fund and HOPWA programs. To use the universal form, have the applicant sign the waiver and attach the appropriate attachment, based on the program that you are working with. This form must be maintained in the participant's file and only completed once during the participant's duration on the rental assistance program. By signing the Government Data Practices Act Disclosure Statement form, the participant is acknowledging their consent to release the various data that is required to determine program eligibility as well as data that that is not required to determine program eligibility. This form does not replace the release of information that a participant may sign, giving the program administrator permission to access third party verification of income or assets.
