HOME HELP Acquisition Price Limit Update

The Department of Housing and Urban Development (HUD) released the [2013 acquisition cost limits](#), which now establishes two sets of acquisition cost limits effective for existing and new construction homes. The HOME HELP acquisition cost limits are effective for all Start Up with HOME HELP loans committed on or after August 23, 2013.

The HOME HELP Loan calculator is currently under construction while the new limits are added to the system. Please contact Minnesota Housing if you need assistance calculating the HOME HELP Loan amount.

The new 2013 HOME HELP Acquisition Cost Limits will be finalized in the Minnesota Housing Online Commitment System near the middle of September. In the interim, lenders may receive error messages when adding the HOME HELP Loan amount to the Commitment System. A manual work-around process is currently in place for HOME HELP commitments that close in the interim. HOME HELP staff will monitor affected transactions and provide additional interim work-around details at the time of loan commitment.
